Cessna Citation Excel

Cessna Citation Excel Description The Citation Excel is technically a mid-sized jet, yet it still fits in the super light jet class– its cabin length is 18.7 feet and it can fly up to 1,961 miles (1,704 nautical miles) – but it can take off in 3,590 feet and climb to cruise altitude in just 18 minutes, performance statistics reminiscent of light private jets.

Flight Range. Select an airport on the map below to see the non-stop service available with the Cessna Citation Excel/XLS. These maximum range examples are based on typical cruise speed assuming ISA conditions, 85%

statistical annual winds, and standard fuel reserves. The intent is comparison purposes only; not for actual flight planning.

Citation XLS+

Simpler controls and brighter displays, all powered by Rockwell Collins Pro Line 21™ avionics, make the Citation XLS+ smarter than ever. This line of avionics provides weather navigation systems, airport diagrams, detailed flight status data, checklists, diagnostic systems and are directly in the crew's line of sight.

Cessna Citation Excel for Sale | AvBuyer

Cessna Citation Excel was positioned as a step-up from 500-series Citations, featuring the stand-up cabin cross-section of the much larger Citation X (shortened by 21) and an un-swept wing design based on the Citation Ultra. Typically configured for seven, the PW545A-powered Excel achieves 1,839 nm range.

Cessna Citation Excel

Cessna Citation Excel. Jump to navigation Jump to search. The Cessna Citation Excel (Model 560XL) is a 2,100 nmi (3,900 km) American business jet built by Cessna, part of the Citation Family. Announced in October 1994, it first flew on February 29, 1996, certification was granted in April 1998 and over 900 have been delivered.
